BAVG to Socket

SKU:A104

2.54-2P+DC=>3.96-4P

Description

BAVG to Socket is a conversion terminal designed for RS485 line construction. This adapter integrates a 2.54-2P terminal with a DC power input interface and converts it into a 3.96-4P terminal. It facilitates the connection of devices within the M5 hardware ecosystem that use a 3.96-4P interface. The included DC power interface allows users to easily use common DC adapters as power sources.

Features

- DC power interface
- RS485 conversion terminal

Includes

- 1 x 120Ω plug-in resistor
- 1 x 2.54-2P terminal
- 1 x HT3.96-4P terminal
- 1 x 3.96-4P conversion terminal
- 1 x I/O Sticker

Specifications

Specification	Parameter
DC Input Interface	Voltage: 9-24V, Model: DC-IN-TH_DC-0440-2.5A-2.0
Net Weight	6.7g
Gross Weight	10.7g
Terminal Specification	2.54-2P + DC-0440 to 3.96-4P
Product Size	17 x 30 x 10mm
Package Size	136 x 92 x 11mm
