Chain Bridge

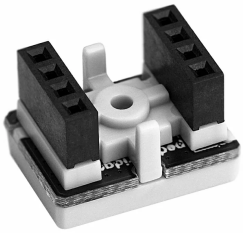

SKU:A155

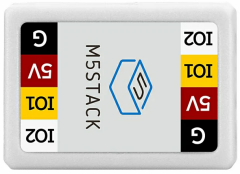

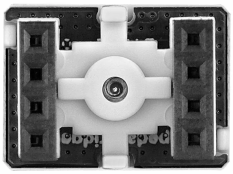

Description

Chain Bridge is a connector designed for the Chain series products and Unit Puzzle, featuring two interconnected HY2.0-4P Grove interfaces. It allows **adjacent** Chain series components to be connected and expands the flexibility and applicability of the M5Stack module system with its excellent durability.

Features

- Compatible with Chain series products and Unit Puzzle
- Modular connection and assembly

Includes

- 10 x Chain Bridge

Applications

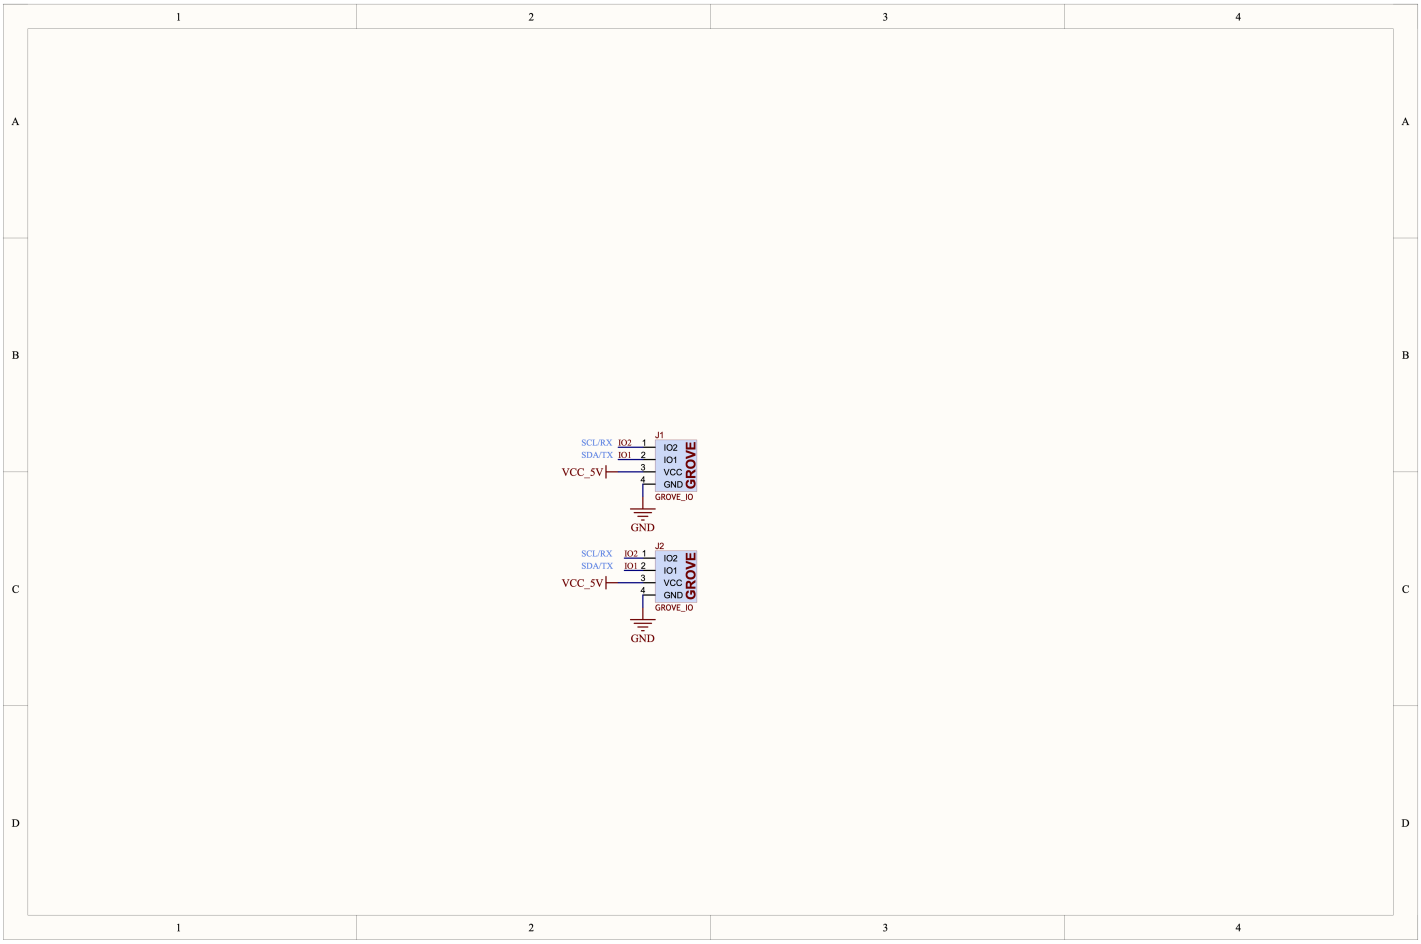

- Rapid prototyping
- Hardware interaction
- Education and learning
- DIY projects

Specifications

Specification	Parameter
Product Size	14.0 x 10.0 x 9.3mm
Product Weight	11.0g (10 pcs)
Package Size	93.0 x 138.0 x 10.0mm
Gross Weight	14.0g
