Stick Watch Accessory Kit

SKU:A173

Description

Stick Watch Accessory Kit is a universal watch accessory set designed specifically for the M5Stick series, including a nylon watch strap, a host fixing clip, and two types of expansion bases. Leveraging the powerful hardware resources and expansibility of M5Stick series devices, the strap and clip can be used to realize wearable application scenarios. In addition to time display, it can also implement applications such as motion status monitoring and smart home control. With the dual expansion bases, it supports various usage forms including wall mounting and LEGO brick splicing, unlocking more application possibilities for the device.

Features

- Compatible with M5Stick devices
- Wearable smart watch modification solution
- Dual expansion bases
- Nylon strap, comfortable and durable
- Supports various usages including wall mounting and LEGO splicing
