CLIP-B

SKU:A148-B

Description

CLIP-B is a versatile creative kit designed for M5 devices (such as Unit, StickC, etc.), including LEGO Technic replacement parts, LEGO brick replacement parts, and a GoPro-compatible main bracket, suitable for various creative and technical projects. It not only supports perfect compatibility with LEGO bricks, expanding construction possibilities, but also easily connects with M5 devices, meeting the needs of multi-scenario applications, and easily adapting to products such as Unit-Puzzle, StickC PLUS, AtomS3R CAM, etc. This kit is suitable for education, maker projects, robot design, and video shooting scenarios.

Features

- M5 device compatibility
- LEGO compatibility
- GoPro-compatible bracket
- Multi-scenario applications

Includes

- 1 x Clip
- 1 x GoPro bracket
- 1 x LEGO Technic replacement part

- 1 x LEGO brick replacement part

Applications

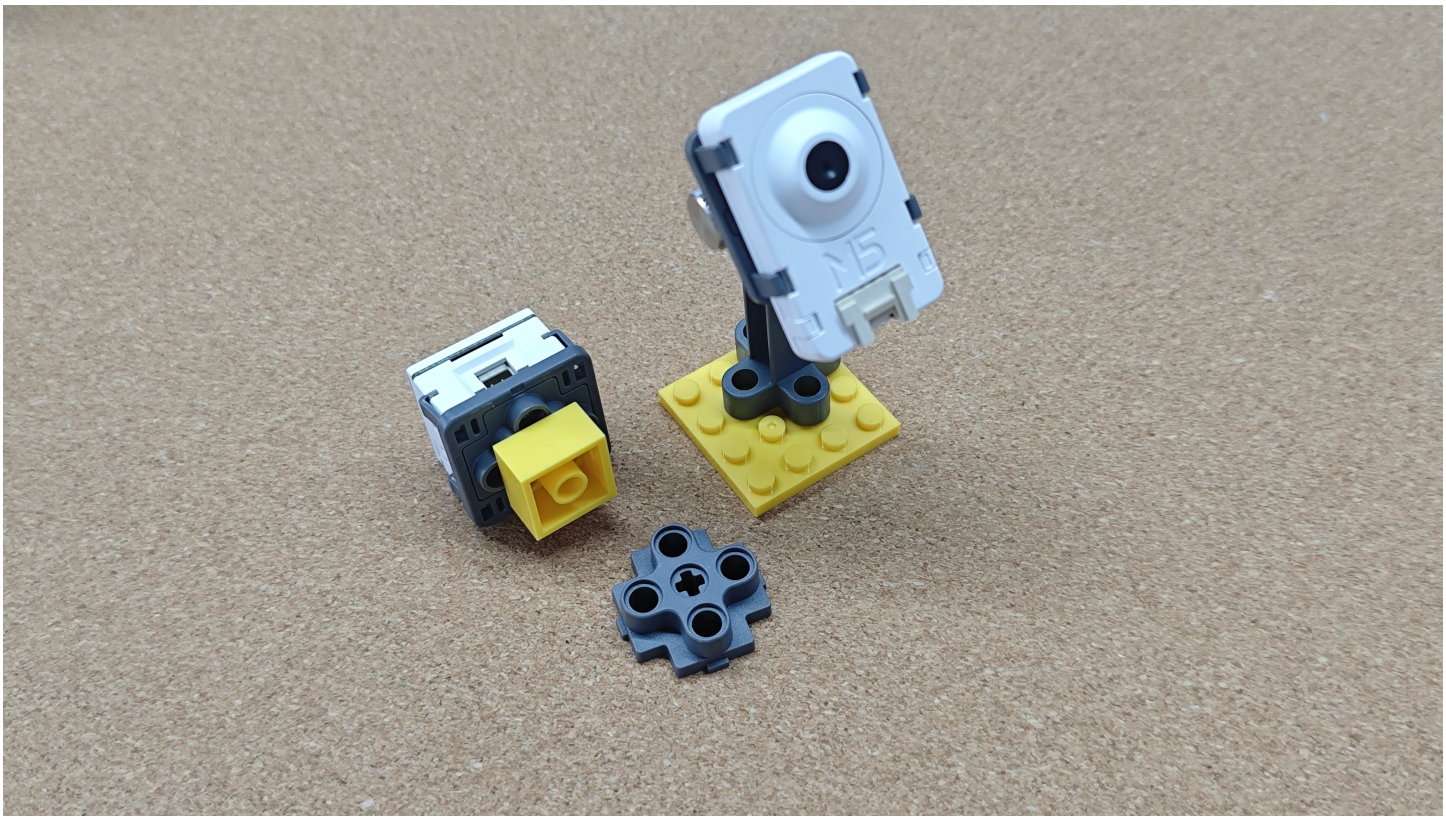

- Education
- Maker projects
- Robot design
- Video shooting fixation
