CLIP-A

SKU:A148-A

Description

CLIP-A is a versatile creative kit designed for M5 devices (such as the unit, stickc series, etc.), featuring functions like clip-on, cable ties, rails, magnetic attachment, and wall mounting. It supports multiple installation methods, helping users to flexibly use M5 devices in various scenarios, whether for convenient wearing, cable management, or fixing devices on walls or magnetic surfaces. It easily adapts to products like Unit-Puzzle, StickC PLUS, AtomS3R CAM, etc. This kit is suitable for makers, education, experiments, and more.

Features

- Compatible with M5 devices
- Multi-scenario applications (clip-on, cable ties, rails, magnetic attachment, wall mounting, etc.)

Includes

- 1 x Back Clip
- 1 x Rail
- 1 x Magnetic Mount
- 1 x Clip Replacement
- 1 x Cable Tie Replacement

Applications

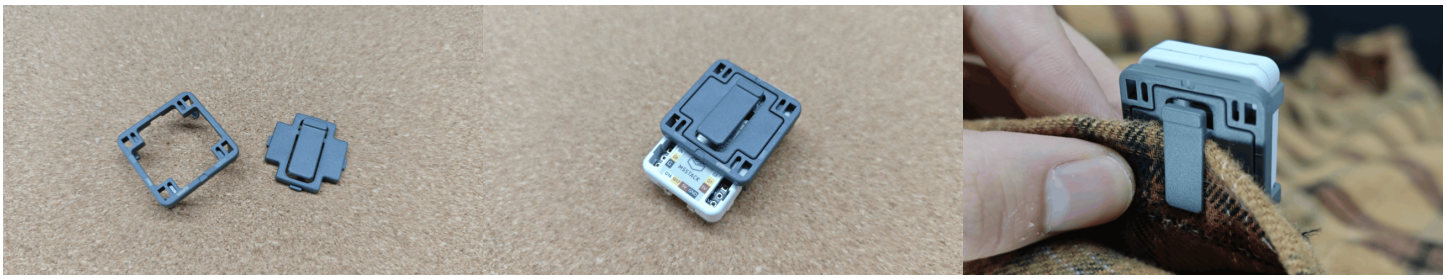

- Makers
- Education
- Experiments
- Robotics Design
